Subject index

A

Accountability and critical care, 86
Australian perspective on registered nurse stress, 45

C

Cancellation during waiting period prior to cardiac surgery, sudden, 105
Cardiac surgery/defects, *see* Heart
Children in adult intensive therapy unit, Piaget's theory of human development applied to nursing of, 236
Communication with intubated and tracheostomy patients, 179
Congenital heart defects, *see* Heart
Contact pressure, *see* Pressure
Critical care, current state, 71

D

Decubitus ulcer on contact pressure, influence of support systems for prevention of, 120
Demands and resources in intensive care environment, matching, 206
Dependency scoring, 214
Development, Piaget's theory of human, applied to nursing of children in adult intensive therapy unit, 236
Disaster-coping in Swedish emergency hospitals, 164
Down's syndrome
  anatomical and functional anomalies, 94
  extended care plan, 148
Dying, stress of caring for the, 219

E

Emergency hospitals, Swedish, readiness for disaster in, 164

H

Heart
  congenital defects
    anatomical and functional anomalies/prognosis/treatment, 94
    extended care plan, 148
  surgery, waiting period prior to, sudden cancellation during, 105
Human development, Piaget's theory of, applied to nursing of children in an adult intensive therapy unit, 236
Humanity and technology, balance between, 23

I

Infarction, myocardial, pain from, 3
Information, preoperative, given to patients by nurses, 80
Intensive care, current state, 71
Intubated patients, communication with, 179

M

Motivational strategies for nurses, 114
Music in intensive care, 160
Myocardial infarction pain, 3

N

Needs of visitors, meeting, 135
Neuman systems model, application, 28
Nurses
  motivational strategies for, 114
  patients and, various interactions, *see* Patients
  role of, *see* Role

O

Oedema, pulmonary, high permeability, 11
Oxygen
  delivery and consumption in septic shock, 193
  percutaneous pressure, decubitus ulcer prevention and, 120

P

Pain, myocardial infarction, 3
Patients
  interactions between nurses and, 171
  intubated and tracheostomy, communication with, 179
  preoperative information given by nurses to, 80
Percutaneous oxygen pressure, decubitus ulcer prevention and, 120
Piaget's theory of human development applied to nursing of children in adult intensive therapy unit, 236
Preoperative period
  cardiac surgery suddenly cancelled during, 105
  information given to patients by nurses in, 80
Pressure (contact)
  area, risk calculator, trial of, 40
  influence of support systems for decubitus ulcer prevention on, 120
Pulmonary oedema, high permeability, 11

R

Rabies, 53
Resources in intensive care environment, matching demands and, 206
Role of nurses
  psychological impact of intensive care and the, 242
  traditional vs expanded/extended, 223

S

Septic shock, oxygen delivery and consumption in, 193
Shock, septic, oxygen delivery and consumption in, 193
Sleep, 61
Stress
  of caring for the dying, 219
  registered nurse, Australian perspective, 45
Surgery, period prior to, *see* Preoperative period
Swedish emergency hospitals, readiness for disaster, in, 164

T

Technology and humanity, balance between, 23
Tracheostomies, communication with patients with, 179
Traditional vs expanded/extended nurses' role, 223
Training for disaster-coping in Swedish emergency hospitals, 164

U

Ulcer, decubitus, on contact pressure, influence of support systems for prevention of, 120

V

Ventilated patients
  giving up and withdrawal by, 200
Visitors, meeting needs of, 135
